

Recruiting: CNC Operator

DROMONE Engineering, Oldcastle Co. Meath has an immediate opportunity for a CNC Operator to support our manufacturing operation.

Reporting to: **Service Centre Manager**

Job role: To manage and produce machined parts by programming, setting up, and operating CNC machinery, maintain quality and safety standards, keeping records, maintaining equipment and consumables in a busy manufacturing environment.

The key responsibilities of the role include:

- Plan machining by work schedules.
- Programming CNC machinery by entering instructions, including zero references positions.
- Production set up.
- Ability to read and interpret drawings and knowledgeable in geometric dimensioning and tolerances.
- Knowledgeable with tool / insert selection and utilizing the correct feeds and speeds.
- Good knowledge of dimensional measuring instrumentations and use of such tools to verify actual measurements of machined dimensions and features.
- Working knowledge of lean manufacturing techniques & principles and 5S.
- Adhering to quality procedures and process-familiar with ISO 9001: 2008.
- Planning & problem solving abilities.
- Maintain safe operations by adhering to all safety procedures.
- Maintain continuity between work shifts by communicating actions, irregularities with supervisor and fellow operators.
- Document actions by completing production and quality logs.
- Shift work will apply for this role.

What you need to succeed:

- At least 2 to 3 years experience as a machinist, with excellent functional and technical skills.
- Knowledge of Mazatrol Fusion, Master Cam, Reinshaw probing system, and Fanuc based ISO.
- Need to have good computer skills, particularly in Excel.
- Ideal industry background: automotive
- Have the ability to read and interpret documents such as safety rules, drawings, operating instructions and procedures to produce products to customer's exact specifications.
- You must have strong organisational and communication skills.

Salary: Competitive rates depending on experience

To apply: email cover note and CV to recruitment@dromone.ie

Closing date 20/09/2017.
