

DROMONE[®]
intelligent:innovation

Tilt Buckets

A range of tilt buckets for all your backfilling, grading, ditch cleaning, slope shaving and land clearing needs.

Designed to ensure excavator capabilities are fully utilised.

90° Bucket rotation (45° rotation left & right)

Tonnage Range	Bucket Width			
6 – 9 T	1.2m	1.5m	1.8m	
13,200 – 19,800lbs	48"	60"	72"	
12 – 18 T	1.5m	1.8m	2.0m	
26,400 – 39,600lbs	60"	72"	79"	
20 – 26 T	1.5m	1.8m	2.0m	2.1m
44,000 – 57,200lbs	60"	72"	79"	82"

Product Features and Benefits:

- Dual layer bucket skin & reinforcing torque box for strength and durability.
- Bucket can be fitted directly to excavator or in conjunction with a Quick Coupler.
- Integrated wear resistant side cutters.
- Reduced pin to edge distance maximizing balance and stability.
- Dual cylinder action maximizing power and performance.
- Integrated Check Valve System providing bucked stability.
- Tilt mechanical stops which protect the cylinder and indicate maximum tilt.
- Integrated Spill Guard, increasing bucket capacity and additional protection to hydraulic cylinders.
- Sealed pivot pin with insert bushings ensuring performance and low maintenance costs.
- Protected greasing points.
- Hardened pivot and cylinder pins.
- Optional reversible bolt on cutting edge.
- Wire guarded hoses for protection.
- Optional variable flow restriction system maximizing power with tilt speed adjustment.
